WORK EXPERIENCE

Senior Marketing Operations Manager 04/2025 – 11/2025

Technomic | Chicago, IL

- Defined and maintained **data flows, field mappings, and sync logic between Marketo and Salesforce**, improving lead routing accuracy, attribution visibility, and reporting **integrity**
- Developed marketing workflows utilizing tools such as **Claude** and **GPT** for automation of segmentation, and content generation; implemented custom scripts and **REST API** connectors across Marketo and Salesforce to enhance campaign speed and decrease manual processes.
- Collaborated with data and engineering teams to validate data structures, **including custom objects and JSON payloads**, ensuring accurate segmentation, personalization, and campaign execution
- Executed **CRM, MAP, and CDP** integration initiatives, including migration projects from **Marketo to Oracle Eloqua**, using TreasureData to align brand data lakes, segmentation, and governed data flows.
- Conducted **UAT, data quality checks, and go-live validation** to ensure integrity and performance of integrations.
- Designed **custom scoring models for event-based interactions** that quantified engagement intensity, topic relevance, and conversion likelihood, enabling prioritized sales outreach and improved lead quality.
- Maintained and evolved **Marketing Operations documentation**, including campaign templates, naming conventions, and workflow diagrams to support scalability and team alignment

Marketing Automation Manager 04/2022 – 04/2025

Technomic | Chicago, IL

- Championed **GDPR-compliant email marketing infrastructure** for Technomic using Marketo, ensuring data privacy and regulatory adherence across all email campaigns.
- Orchestrated **multi-touch lifecycle programs in Marketo**, smart campaigns, and tokenized assets, driving improved engagement and conversion across B2B demand generation initiatives.
- Owned and oversaw **architecture, management, integration** of **entire Marketo-Salesforce instance**.
  - Managed **audience information** for >200k users and implemented data integrity projects for reporting and analysis.

- Developed and implemented a **dynamic lead scoring model** that prioritized high-quality leads based on engagement, demographics, and firmographics, improving alignment between marketing and sales teams.
- Created **tailored Marketo training and knowledge-sharing resources** that empowered marketing, sales, and RevOps teams to handle data responsibly, adhere to compliance standards, and operate effectively across connected systems, with a focus on sustaining data accuracy and optimizing workflow efficiencies.
- Applied **data-driven segmentation strategies**, boosting targeted campaign effectiveness and audience engagement.
- Implemented **weekly data hygiene** tasks to enhance email deliverability, including **data de-duplication, enrichment, and normalization**.
- Developed and executed a **Marketo nurture strategy**, increasing middle-funnel lead engagement by 35% and improving conversion rates through targeted, automated email campaigns.
- **Used Monday** as project management software to manage deadlines, tasks, and tickets.

- Pioneered establishment of **paid digital campaigns** on platforms like LinkedIn, Reddit & Google for Technomic's growth goals.

Marketing Manager 04/2020 – 04/2022
SundogIT | DeKalb, IL

- Planned and executed **full-funnel cyber security marketing campaigns**.
  - Developed **digital ad strategy,** owning and driving marketing programs from start to finish, overseeing the company's digital footprint.
  - **Designed, printed, and digitized** Sundog's monthly newsletter, "Bits and Bytes."
  - **Filmed, edited and produced** YouTube series "Sundog Tech Tips" to educate clients on new Microsoft 365 products and features.
  - Scheduled and recorded **monthly webinars** on cybersecurity topics hosted by the CEO.
- Supervised and **mentored marketing interns**, providing guidance and support.
- Managed CRM and executed marketing automation campaigns using **HubSpot**.
  - **Utilized HubSpot's automation tools** to nurture leads through personalized workflows, improving conversion rates at each funnel stage.
  - **Collaborated with sales and marketing teams** to ensure seamless lead handoff via HubSpot's CRM integration with Salesforce, enhancing pipeline management.
  - Monitored and analyzed campaign performance across the funnel **using HubSpot reporting**, optimizing based on real-time data insights.
- Served as the principal photographer and video editor for **client testimonial projects**.
- **Managed social media channels**, including Instagram, Facebook, LinkedIn, and Twitter.
- Prepared **weekly reports** using Traction Tools Leadership software, incorporating Google Analytics and other reporting structures.
- Demonstrated strong project management skills by effectively managing **production schedules**, **budgets**, **stakeholder coordination**, and **agency/vendor oversight**.

Marketing Associate 04/2019 – 04/2020
SundogIT | DeKalb, IL

Design work on Adobe platforms for RFP's.
Responsible for weekly marketing initiative for **1,000+ prospects** monthly in local area.
Email building + data hygiene automation within HubSpot.

- Audience Management for 10k user database.
- Adhere to GDPR guideline standards.
